I'm 21

working half day learning half day

struggling for a few years now

always had problems when I was young but B'h got help from a staff

but during covid, I had access to the internet for the first time on my own so I messed up all the hard work from the years before, and now I'm deep into bad stuff that I don't even feel...

(do I need to refresh the page to see if there is a reply or it's auto-sync?
