Extremely common issue. Guys work so hard to stay clean and while in yeshiva, are successful. Then they go home and are surrounded with many devices and too much time. In addition, the location can trigger - this is the place where i watched this and that, this is the place where i masturbated... One eitzah is to write up a contract "I will not use any unfiltered device even for kosher purposes. If i break this geder and use an unsafe device, even if i did not view inappropriate stuff, i will rip up \$5. This contract is in effect for 30 days, and at day 25, i will write a new contract for the next 30 days with any changes that i see are necessary. One exception - If i absolutely must go online and there is no safe device available, i will notify a friend or GYE partner that i am using an unsafe device for approx ____ minutes and will notify him when i am off and safe". In addition, make a schedule for yourself where you allow relaxation time, but also productive time. Too much "hang around shleppy" time creates nisyonos. Lastly, when you come to a location in the house that you fell in the past and maybe view as a makom tumah, say out loud, "This location is pareve. It is my choice what to do here. Hashem, please help me to make this into a mikdash me'at with learning, chessed, tehillim, and ma'asim tovim". Then go do something nice in that location.

signing in here

I heard an interesting gaon mishlei 24 1

Brings down pasuk in koheles that the yetzer hara's main goal is not the actual sin but rather the downward spiral that comes after with all the negative feelings

so stay strong and dont let him win

Think about how you'll feel if you make it through the off-Shabbos clean! Then realize that if you "just" take a peek, you know from past experience that it will make it extremely difficult to make it through. Aside from the personal achievement, every moment you battle through a difficult time - earns you tremendous reward, and Hashem is showing off your victories to his Malachim.

Also, you should try to make a plan of how you're going to occupy yourself from now until the end of the off-Shabbos.

Hatzlocha! Hang in there!

Don't forget this!

And I'm not sure you have to fight harder - just keep fighting like you have already! (and fight smarter...)

Celebrate the fact that your eyes stayed clean. That goal should remain stark, even if you are finding masturbation to still be tough. I hope you will graduate both, but do not throw in the towel on pornography if you stumble with masturbation - that is what the yetzer hara would like to see...
